

### MMX 2000 Series

#### ▲ Economical Flexibility

The Portable Class of mixers is the workhorse of the process industry. This design is distinguished for its ease of use and flexibility, and the clamp has indexing to lock the mixing position. For this mixer classification, Dynamix offers the MMX 2000 Series.

#### MMX 2000 Series

This basic model features direct drive for light duty mixing

#### Fixed or Collapsible Impellers

Our collapsible impellers overcome the limitation of a 2" opening

1-Collapsible Impeller

2-Fixed Propeller
